

AgWIP stands for Ag Work in Progress and signifies forward-focused executive education for financial professionals

## AgWIP: A Peer Group for Food & Ag CFOs & Controllers

The group is an ongoing, multi-year assembly of individuals serving as leaders in the finance & accounting functions of their food & agriculture organizations. The intent is to share best practices, common challenges, & information sources among a trusted group of colleagues.

### The content is a combination of:

- Sharing practices & processes among group members, including demonstrations & case studies
- Interacting with industry experts in a personal, small group setting
- Sharing goals & providing accountability to them

### The focus is driven by participants.

#### Content themes include:

- Effective reporting to various audiences
- Software selection & use
- Data management & integration
- Projections
- Managing a team of professionals
- Linking finance & accounting to business strategy
- Working within a family business

Content is focused roughly 70% on topics specific to running a finance/accounting department & 30% to broader management & industry topics.

#### Schedule

- Meet in person twice per year for 1 1/2 days each.
- Two hour video session twice per year.

Meetings are facilitated by the peer group team at Pinion. Our clients continue to sharpen their financial management by investing in talented professionals. We see the value of getting the right people in the room to learn from & with each other.
